## **COMPANY PROFILE**

**"Partners in Process Industries  
Supply"**

## ABOUT US

Established in 2006 in Karachi, Progressive Engineering Company, fondly known as PECO, has been diligently addressing the dynamic needs of the Oil and Petrochemical industry in Pakistan.

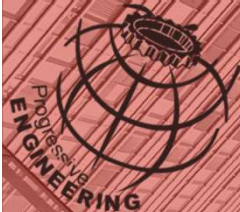

Over the years, PECO has cultivated a strong presence in the market, earning a well-deserved reputation as one of the most reliable and leading suppliers of Mass Transfer Components, Bulk Piping Materials, Valves, Hoses, and Accessories to the Oil, Gas, Petrochemical, Refineries, Power Generation, Water, and General Engineering.

As an esteemed Engineering company, we go above and beyond by providing valuable Engineering and Feasibility Studies, Process Design Packages, and Detail Engineering services.

Situated in the vibrant city of Karachi, PECO has strategically positioned itself to revolutionize the business landscape across Pakistan. As a dynamic Importer, Trader, Indenter, and Services provider, we bring you a world of premium products sourced from reputable companies worldwide.

PECO specializes in Valves, Pipeline Systems and Engineering Services, providing high-quality products with a wide range of spares and equipment. We ensure swift access to meet our clients' unique needs. Our clientele boasts well-known entities in Pakistan's Oil & Gas, Fertilizers, and Engineering sectors.

Our seasoned team of professionals is committed to staying at the forefront of global technological advancements, ensuring that we are well-equipped to cater to your evolving needs in the years to come.

## GENERAL INFORMATION

### Head Office

17-C, 1st Floor Main Khayaban e Muslim CINEPLEX Cinema Road, DHA Phase VI, Karachi-Pakistan.

### Number of Employees

We have a total of 25 employees, out of which 8 highly qualified personal in sales and marketing, 4 qualified Engineers in Technical Marketing specialized in a different Engineering discipline, 5 personal in Finance, Accounts, & HR and 8 other employees.

### Our Bank Details

Account Name : Progressive Engineering Company  
Account No. : 1246 7060 3100 4769

being maintained with MCB Bank Limited;

SWIFT Code : MUCBPKKA, DHA Branch, Karachi, Pakistan.

PECO NTN No. : 3543819-3

## OUR VISION

---

At Progressive Engineering, our goal is to create a lasting impact beyond becoming a respected supplier of Industrial Supplies in Pakistan. We believe that people are the most valuable asset for any company, and our vision goes beyond transactions to encompass the prosperity of our Employees, Suppliers, and Clients. We are committed to sowing the seeds of progress and success, creating a ripple effect that positively influences both our business environment and the broader community.

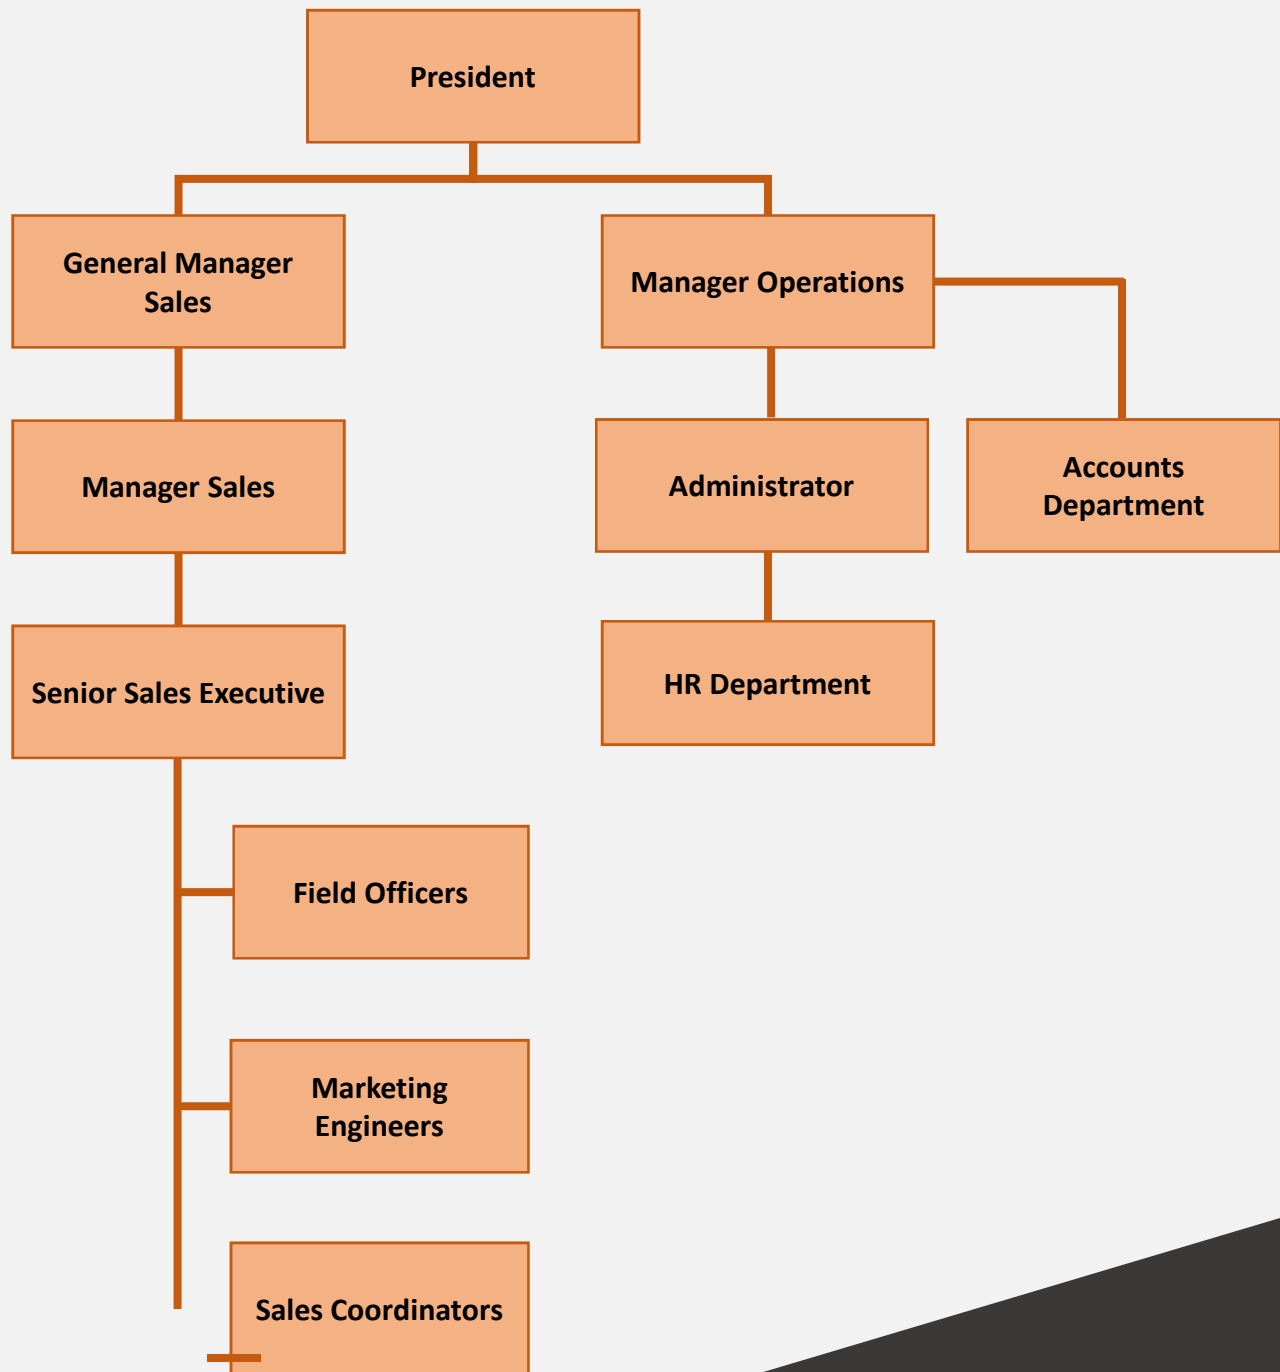

## OUR MISSION

---

- ❖ Delivering high-quality, cost-effective Process Industrial Products with an unwavering focus on customer satisfaction. Prioritizing continuous training and quality improvement for an unparalleled customer experience.
- ❖ Setting trends in new developments to empower industry professionals in their respective fields.
- ❖ Exploring the global market to bring innovative products to the local scene, boosting production efficiency and elevating the quality of final products.

## OUR TEAM MANAGEMENT

## CODE OF ETHICS

**CONFIDENTIALITY:-** PECO upholds the confidentiality of the Principal's intellectual property and sensitive information, ensuring utmost discretion unless expressly permitted or confirmed in writing by the Principal.

**COMPLIANCE WITH LAWS:-** Committed to strict adherence to all applicable laws, rules, and regulations, PECO promptly notifies the Principal of any conflicts between our code and local laws, seeking guidance for resolution.

**INTEGRITY OF RECORDS:-** PECO meticulously verifies all data and reports generated for Principals, ensuring accuracy and taking responsibility for the information we provide.

**PROTECTION AND PROPER USE OF ASSETS:-** PECO safeguards and returns, upon request, all assets received from the Principal, utilizing them solely for the purposes outlined in the agency agreement, including drawings, funds, materials, and know-how.

**CORRUPTION AND BRIBERY:-** PECO strictly prohibits any offering or acceptance of value to commercial counterparts, maintaining compliance with Anti-Bribery Laws. Indirect actions mirroring direct prohibitions are similarly condemned, emphasizing a commitment to ethical business practices.

## QUALITY POLICY

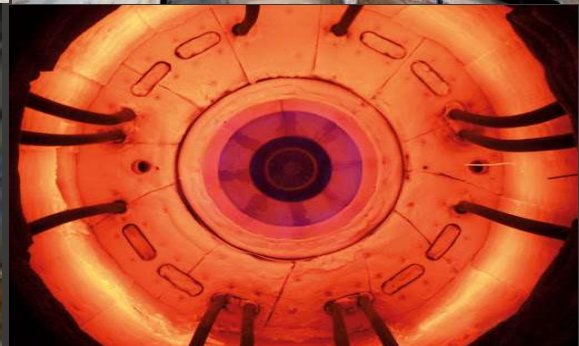

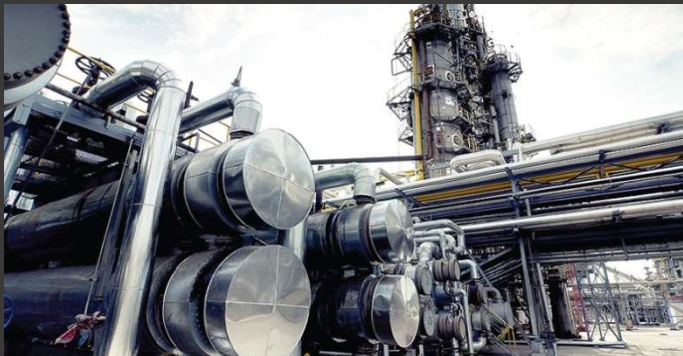

Our company is dedicated to achieving unparalleled customer satisfaction through the effective sales and marketing of equipment in the Process Industries:

- 1- of the highest quality standard and
- 2- timely delivery of goods and materials

We uphold an unwavering commitment to quality, offering only genuine products certified by their respective international principals.

## CORE BUSINESS ACTIVITIES

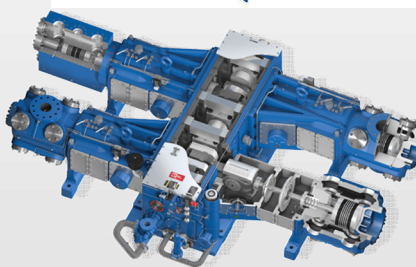

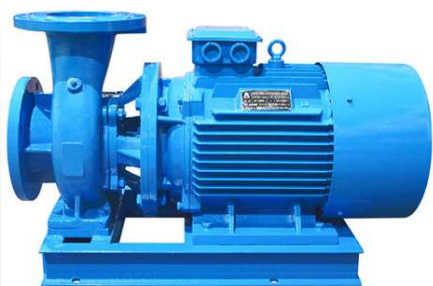

- Process License Technology
- Offshore Project Consultancy
- Mass Transfer Equipment
- Process Equipment Design & Supply
- Fluid Mechanics
- Electrical Heat Equipment
- Process Burners
- Turbine & Generator Overhauling & Services
- Revamp & Retrofits
- Feasibility Study & BED

## PRODUCT PORTFOLIO

- ❖ Centrifugal & Reciprocating Pumps
- ❖ Reciprocating Compressor
- ❖ Column Internals , Trays & Packing
- ❖ Process Burners
- ❖ Electrical Heaters & Heat Tracing
- ❖ Flare System
- ❖ Valves, Pipe Fittings & Flanges
- ❖ Studs, Bolts & Gaskets.

## OUR PRINCIPALS

- Sulzer Pumps
- Sulzer RS
- Sulzer Chemtech
- Sulzer GTC
- Chromalox (Electrical Process Heaters)
- Faudi Filtration Technology
- SIAD Macchine Impianti S.p.A
- MANOIR INDUSTRIES
- Peroni Pompe
- Paralloy Group
- Made S.A.

## PROCESS LICENSE TECHNOLOGY

### Sulzer GTC Technology US Inc.

At PECO we strive to continually evolve our services with renowned organizations and to deliver their products to respected industries. Our mission is to extend comprehensive technical services worldwide, leveraging the expertise of our dedicated technical team.

As the exclusive representatives of key Principals in Pakistan, we proudly embody a commitment to excellence.

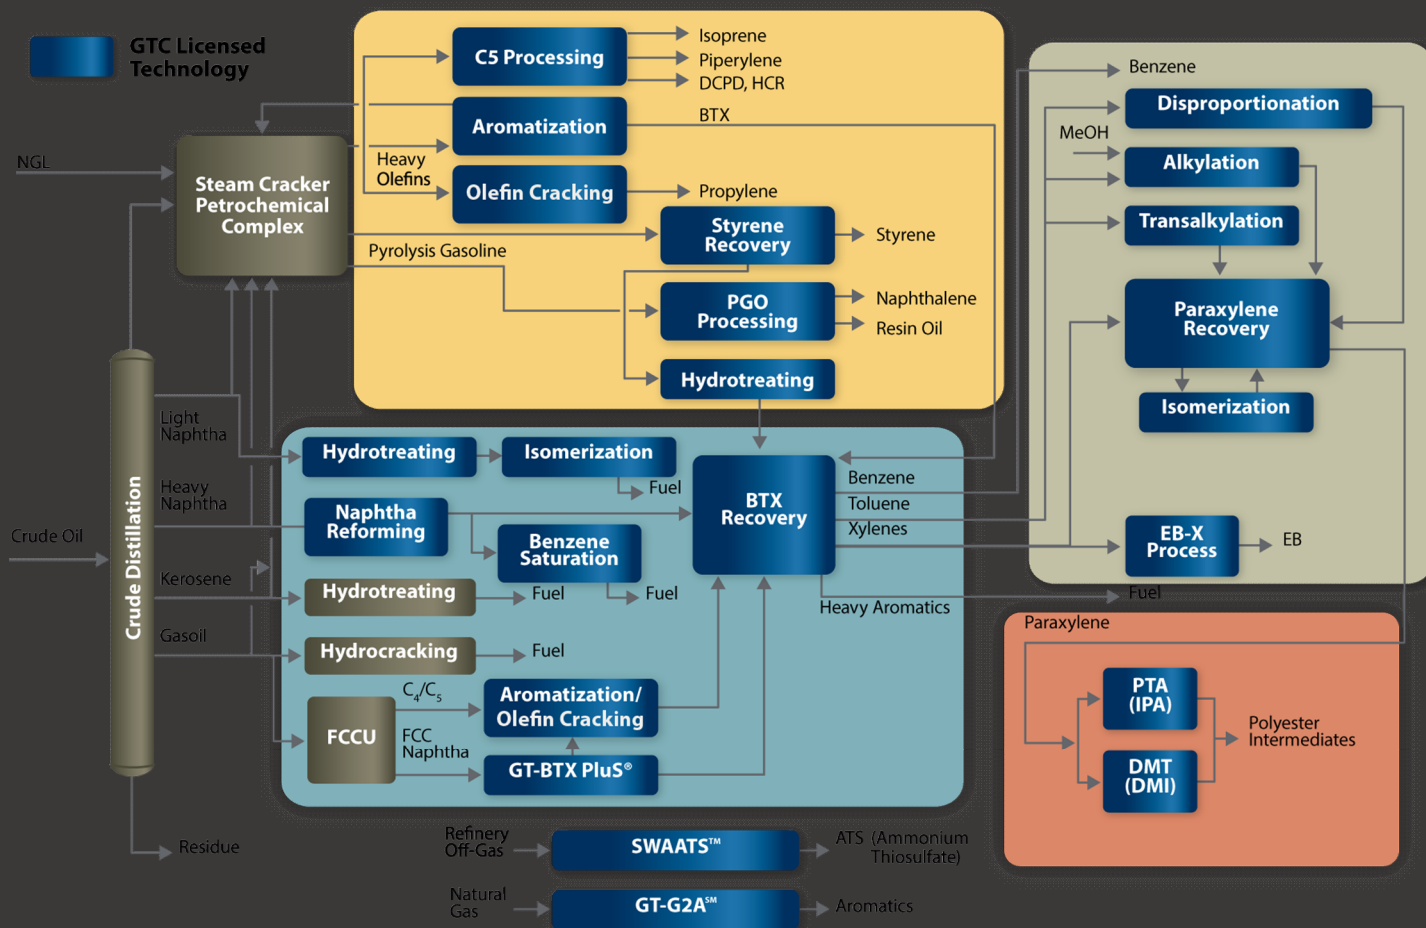

Focusing on Sulzer GTC, our commercial portfolio is strategically centred on Licensed Technology and Process Equipment & Services. We thrive on pioneering New Ventures, embracing unique technologies and equity partnerships that pave the way for accelerated future growth.

| LICENSED TECHNOLOGY            | EQUIPMET & SERVICES          | NEW VENTURES                      |
|--------------------------------|------------------------------|-----------------------------------|
| Steam Cracker Petrochemicals   | Process Equipment Technology | Gas Conversion to                 |
| Refinery & Clean Fuels         | PET                          | Petrochemicals, Aromatics, Fuels. |
| Aromatic & Polyester Feedstock | Energy Services              | Bottom of Barrel Slurry           |
| Catalyst / Solvents/ Chemicals |                              | Hydrocracking                     |

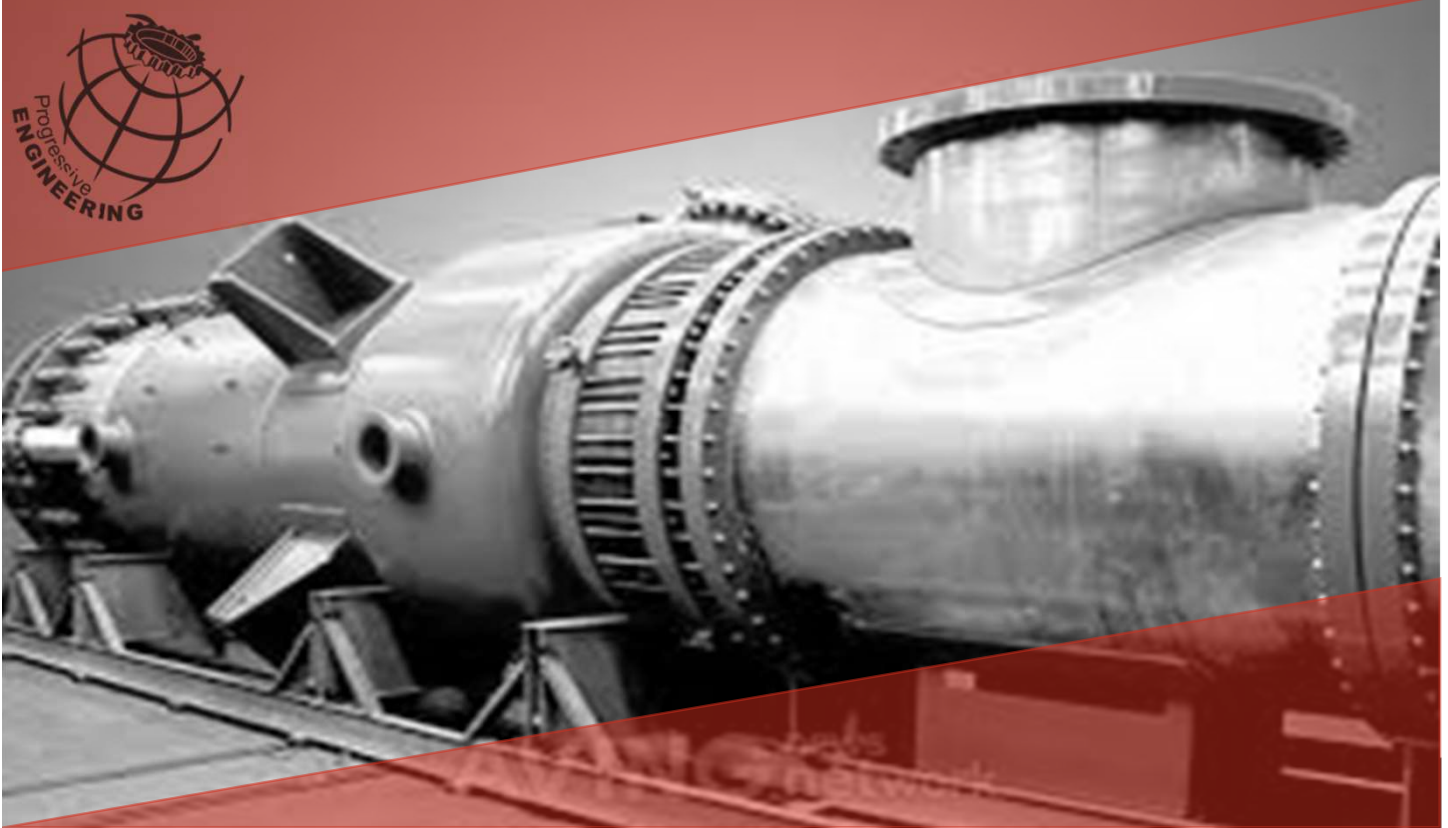

# PROCESS LICENSE TECHNOLOGY

Sulzer GTC Technology US Inc.

## MASS TRANSFER TECHNOLOGY

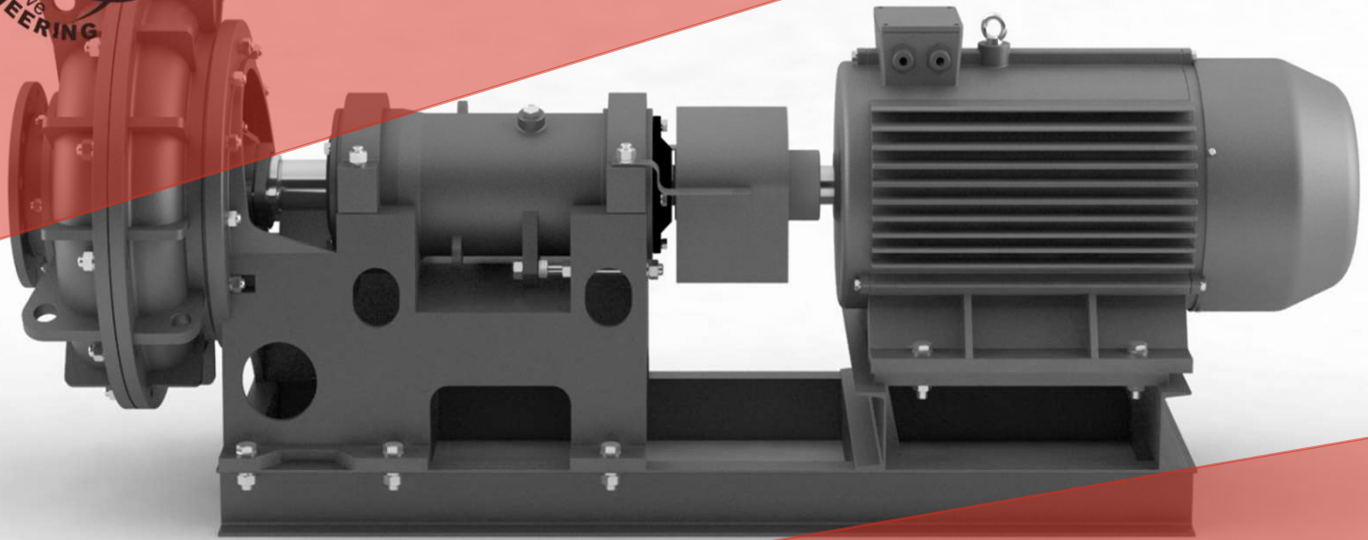

### Chemtech | Sulzer

Sulzer stands as a worldwide industry leader, offering dependable and sustainable solutions across diverse markets, including Oil and Gas, Power, Water, and general industry sectors.

Our key competencies lie in superior flow control and cutting-edge applicators. We are specialists in providing pumping solutions, services for rotating equipment, as well as expertise in separation, mixing, and application technology. At Sulzer, we are committed to delivering excellence in every aspect of flow management and application innovation.

Services include but are not limited to the below:

- Rotating Equipment
- Static Equipment
- Process Services
- Spare Parts
- Water, Waste Water and Dewatering Products
- Testing
- Digital Solutions

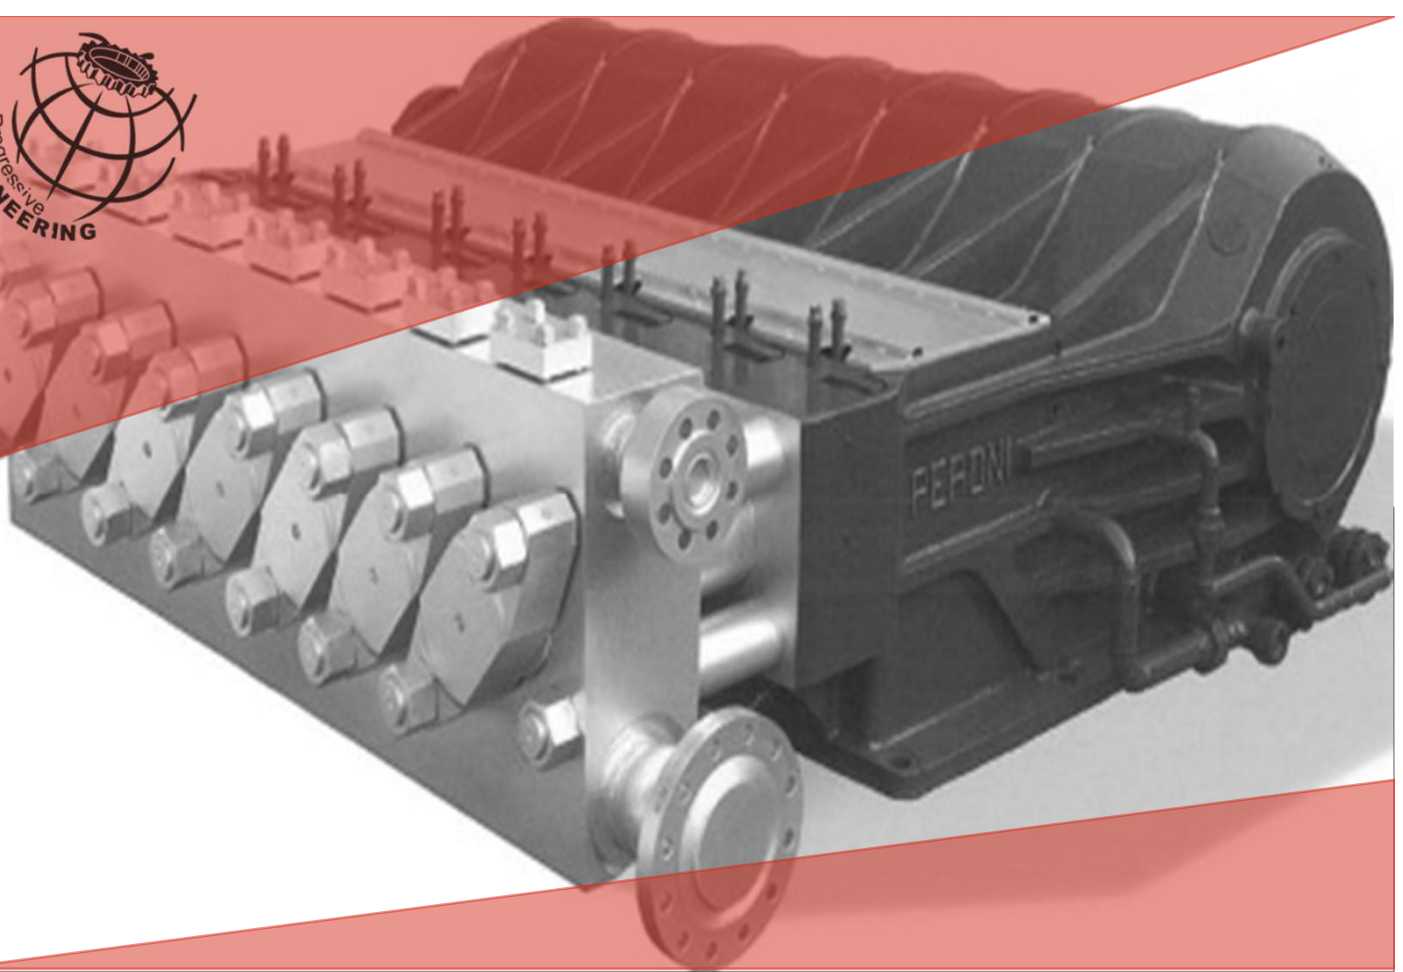

## CENTRIFUGAL PUMPS

### Sulzer Pumps

Sulzer is a global leader in fluid engineering. We specialize in pumping, agitation, mixing, separation, and application technologies for fluids of all types.

Pump Services includes;

- Contract & Predictive Maintenance
- Inspection and Analysis
- Remote Monitoring
- Repair & Overhaul Services
- Retrofit
- Reverse Engineering

## RECIPROCATING PUMPS

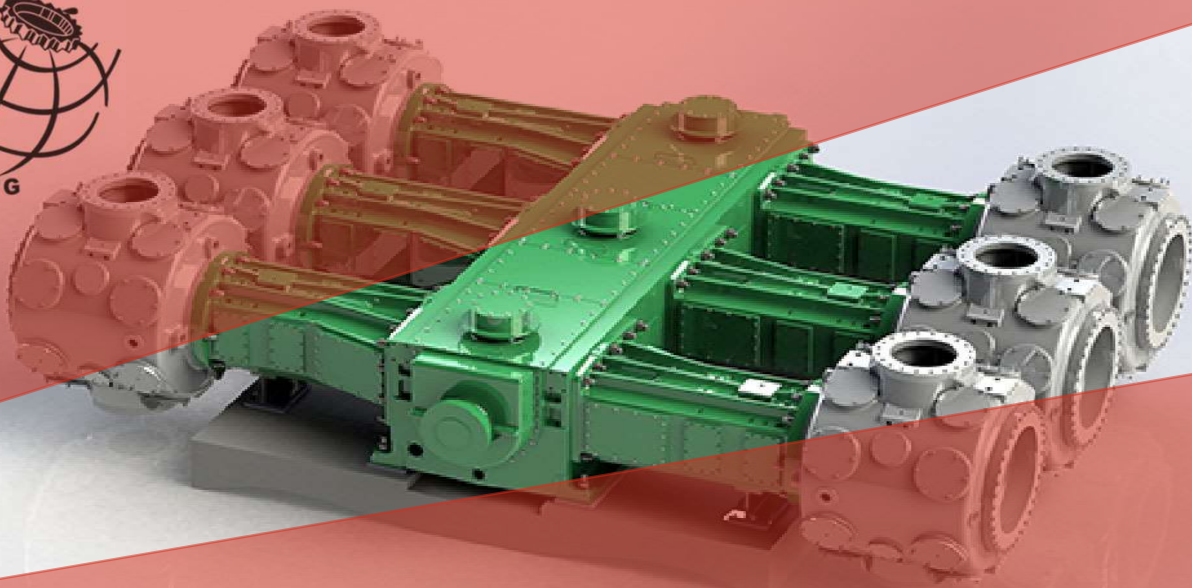

### PERONI POMPE

Peroni stands out as a preferred supplier for international oil companies, particularly recognized for providing process reciprocating pumps tailored for challenging applications. Additionally, we proudly hold a privileged partnership with licensors for addressing innovative pumping scenarios.

Our comprehensive product line includes triplex, quintuplex, and septuplex reciprocating power pumps, meticulously designed following API 674 standards. These robust pumps boast capacities reaching up to 2500 kW and pressures up to 1500 bar.

Furthermore, Peroni excels in the production of steam-driven pumps, diaphragm process pumps, and plunger and diaphragm metering pumps, all crafted to meet the stringent specifications outlined in API 675. With Peroni, excellence in pump manufacturing meets the highest industry standards.

## Reciprocating Compressors and Air Separation Units

### SIAD Machine Impianti S.p.A

SIAD Machine Impianti S.p.A. stands as a global leader in manufacturing compressors and air separation units, serving as a pivotal reference point across various sectors including Refinery, Petrochemical, Chemical, Energy, Food, and more. Presently, the company is actively engaged in the design, production, and installation of cutting-edge solutions worldwide.

SIAD Machine Impianti's global reach is undeniably demonstrated through an extensive network of agents and Certified Service Centers spanning the entire globe. Further substantiating its international presence are the company's own entities strategically located in Belgium, Brazil, China, India, Russia, Spain, and the UAE.

Product Ranges includes:

- Reciprocating compressors for process gas and air, for compressing all types of gas and mixtures;
- Instrument Air Packages;
- Standard Compressors, for PET bottle blowing;
- Air Separation Units, for manufacturing industrial gases;
- Natural gas treatment and Liquefaction (LNG) plant.

## ELECTRICAL HEAT EQUIPMENT

### CHROMALOX | Advanced Thermal Technology

Chromalox pioneers cutting-edge thermal technologies tailored for the most challenging industrial heating applications globally.

We are recognized as authorities in providing solutions that not only surpass specifications but also mitigate risks and slash operating costs.

Chromalox redefines excellence in thermal engineering, providing Temperature Management Solutions for piping systems, valves, and tanks, Process Heating Solutions for industrial processes, and Component Heating Solutions for industrial equipment manufacturers, all designed to elevate industrial performance.

#### Product Portfolio;

- Heat Trace
- Industrial Heaters & Systems
- Component Technologies

#### Industrial Solutions;

- Temperature Management Solutions
- Process Heating Solutions
- Component Heating Solutions

## High-performance cast components

### MANOIR INDUSTRIES, THE PARALLOY GROUP

With a rich legacy spanning a century, Manoir Industries has evolved into an international metal-processing group, specializing in the development of alloys and precision processes for manufacturing high-performance cast components. These components cater to a diverse range of industries.

The Production line includes the following items:

#### Centrifuged Products:

- Assembled tubes
- Collectors of large diameters and thicknesses, assembled using welding, including tees and cones.
- Cold collectors and transfer lines in stainless-steel alloys, lined with refractory concrete in house
- Cracking tubes, in Manoir Industries' proprietary alloys, the Manaurites®
- Centrifuged tubes
- Tubes for preheating furnaces
- Radiation and convection tubes
- Vertical tubular heat exchangers
- Reforming tubes of large diameter in Manaurite® DRX

#### Cast Products:

- Accessories for large-capacity steam-cracking and reforming furnaces, and related components for the cracking furnaces for olefin production;
- Nuclear cast components for primary and secondary circuits.
- Francis-type wheels of different sizes in martensitic stainless steel a
- Steel industry: some examples of various sizes and complex morphologies cast components manufactured in sand casting or by centrifugation
- Railways: cast components developed in proprietary alloys for railway crossings;

## **PRESTIGIOUS PROJECTS HIGHLIGHTS**

- Consultancy for getting Govt. approvals, EPA and Navy Approval for SPM installed by Coastal Refinery/Bosicor. Also provide consultancy for the selection of EPC Contractor for the project.
- 200 KM Natural Gas Linepipe Supply for UEP Projects.
- Revamp and Up-gradation of Crude Charge pumps and heater of PARCO by Foster Wheeler and Sulzer Pump.
- Design, Engineering & Supply of 4 Units of 3-Phase Separators to UEP.
- Design & Supply of Column internals and Sulzer pumps to NRL Lube Refinery Revamp.
- Complete flare Package with control system and instrumentation has been supplied to MOL Pakistan, Pakistan Petroleum Limited.
- Revamp of Dehydration column of PTA Plant.
- Design & Supply Hydrogen Peroxide Concentration unit to Descon Oxychem.
- Study and Engineering design of De-dusting unit for Fauji Fertilizer company.
